

Message from the CEO: A Year of Unprecedented Growth

In 2024, Community Clinic experienced substantial growth and made meaningful strides in expanding access to care – despite the ongoing economic uncertainty that impacted healthcare systems nationwide.

Through our strategic planning, operational efficiency and the unwavering dedication of our staff, we were able to increase patient counts by over 50% and expand services across multiple disciplines, including family practice, pediatrics, behavioral health, dental care and chronic disease management. These accomplishments underscore our commitment to meeting the evolving needs of our community, even in the uncertain times.

One of the key drivers of this growth was our focus on innovation and operational

efficiencies. By integrating new services including health coaching and forging new community partnerships, we reached more patients in new areas and reduced barriers to care. Additionally, targeted outreach and programming allowed us to strengthen trust and engagement with expanded populations across our region.

These efforts not only enhanced service delivery but also reinforced our mission to provide high quality, accessible care to everyone. As we look ahead, we remain committed to sustaining this momentum and building a healthier, more resilient community for the future.

– Judd Semington, CEO

Types of patient visits

A total of 223,666 patient visits in 2024 reflects our commitment to quality, accessible care. Here's how those visits break down by type.

Who we are

Community Clinic is a leading health system in Northwest Arkansas, dedicated to empowering individuals to live healthier, happier lives. Rooted in our mission to transform the delivery of exceptional care and build healthy communities, we proudly provide accessible, comprehensive and patient-centered services delivered by compassionate, expert teams. With same-day access to a wide range of care — including primary care, pediatrics, women’s health, dental and behavioral health — we ensure high-quality care is always within reach. Through strong relationships and strategic partnerships, we expand access and improve outcomes. At the heart of everything we do is our promise: We care. You belong.

MILESTONES

Acquired Community Physicians Group (CPG) of Siloam Springs and Advanced Health & Wellness in Fayetteville

Engaged 347 patients in health coaching with the Newtopia whole health platform

Earned “Gold+ Target BP” status from the American Heart Association and American Medical Association
